

# App enabled security

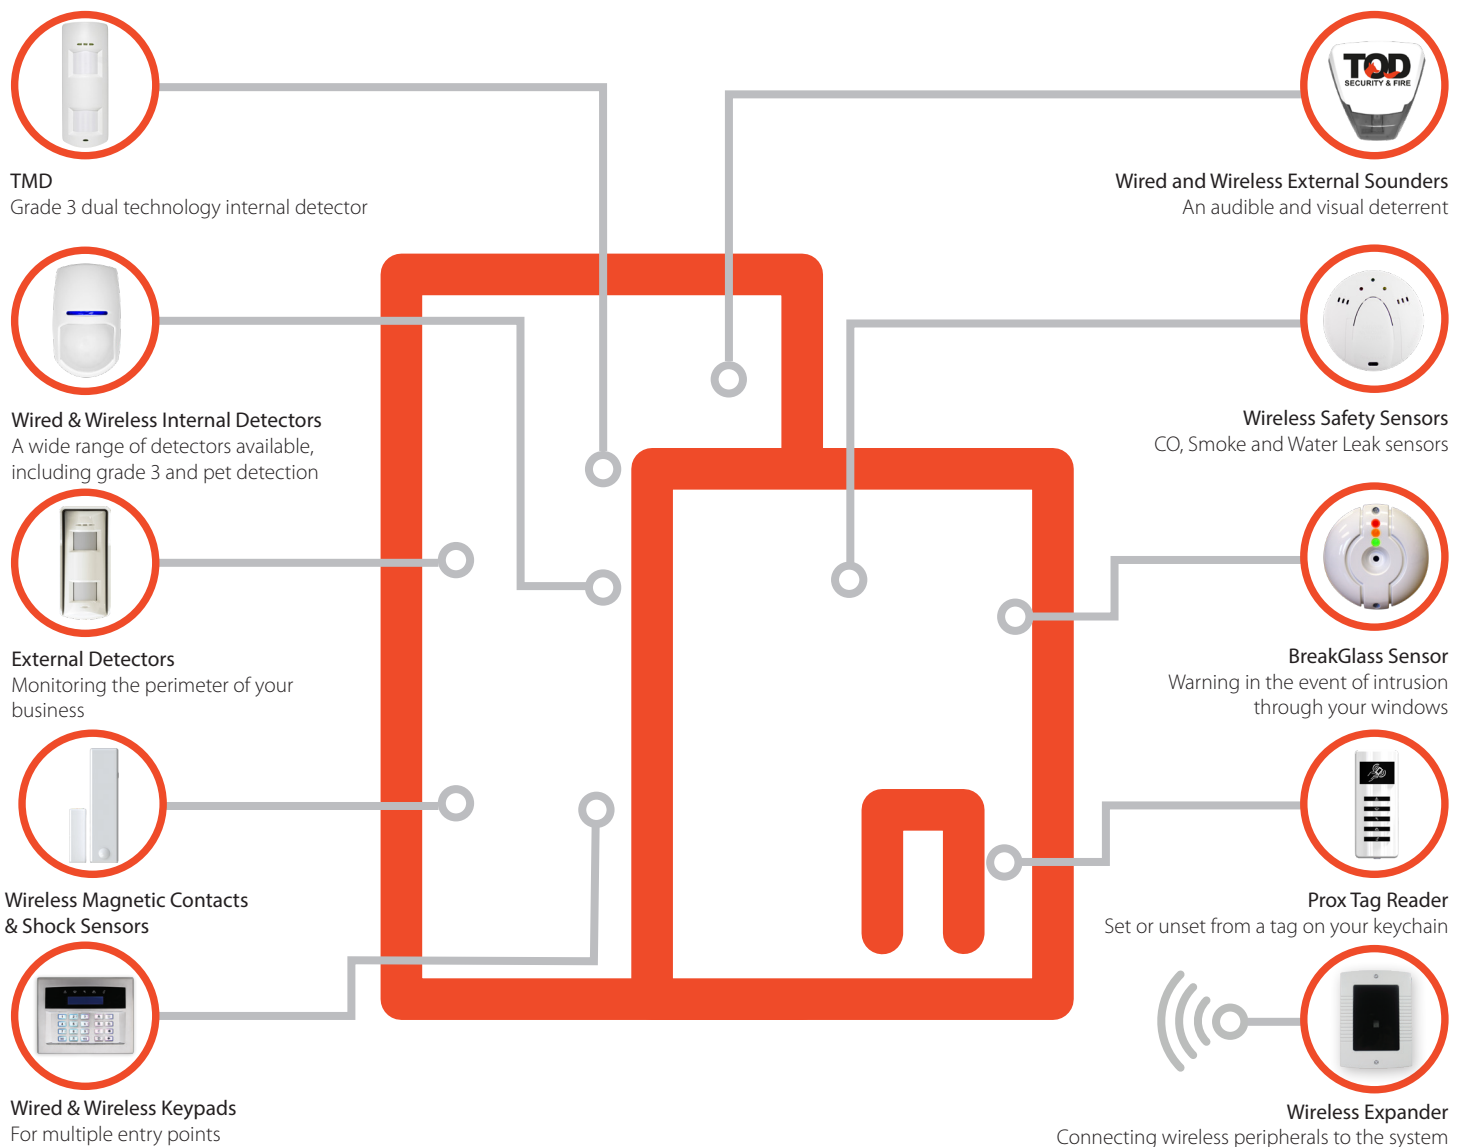

## EURO 46 V10 Hybrid Control Panel

The Euro 46 V10, controlled through ProControl+ gives ultimate usability from anywhere. Furthermore, by adding a wireless expander to the control panel, you can add any of the two-way wireless peripherals to your system. This is ideal for replacing an existing control panel, or if you are wanting a more traditional wired security system.

- Grade 2/3 security system
- Up to 64 wireless peripherals
- Up to 76 total peripherals
- Up to 2 wireless bells
- Wireless safety sensors
- ProControl+ App on iOS and Android
